

Specialized Housing, Inc.

Specialized Housing, Inc. has been supporting independent living programs for adults with developmental disabilities since 1983. Specialized Housing works closely with each family group to develop and manage homes in a way that focuses on community and individual needs. Our homes are owned by the families or adult residents, which allows for specified services and promotes commitment among families, staff, and the adult residents. All of our homes are supported by on-site professional staff.

For more information about Specialized Housing, Inc., current openings or developments, please contact Michael Caballero at mike@specializedhousing.org.
